Didn't expect it to be such an addictive little game. The real fun began when I mounted the guns and blasted all those annoying planes out of their misery though :). It's a long way to the top!

<http://steamcommunity.com/sharedfiles/filedetails/?id=822182196>. Amazing, and really addictive i suggest this game to everyone you know and it is only around \$4! (the only thing is that it says miles in game, and on the achievements it says feet. It would make a lot more sense if it said feet.)
